What and Why	In the first half-term, pupils get to know their new class, the wider-school community and the part that they play in that. We recognise that starting school is a challenge for all children, and want to ensure that they feel as safe and secure with us as possible.	This half-term is full of exciting celebrations from many different religions and traditions. Our children have the opportunity to learn about the world around them and look for similarities and differences between their own lives and the lives of others.	All children love a superhero. This topic is a great way to get children engaged in lots of problem-solving activities. We will have lots of fun dressing up as superheroes, talking about our learning powers and finding out a little bit more about ways that we can help our school and local community.	Spring is a fantastic time to notice change in the world around us. We will grow our own plants and use the language of size to compare and contrast the living things around us.	In the first half-term of Summer, we will have lots of fun learning about the smallest and largest creatures on our planet (past and present).	In the last term before Key Stage 1, the children will explore stories, games and resources from all continents in the world.
Intended Impact (ELG)	Children will be confident to speak to others about own needs, wants, interests and opinions, describe self in positive terms and talk about abilities.	Children talk about past and present events in their own lives and in the lives of family members. They know that other children don't always enjoy the same things, and are sensitive to this.	Children will use what they have learnt about media and materials in original ways, thinking about uses and purposes. They will represent their own ideas, thoughts and feelings through design and technology, art, music, dance, role play and stories.	Children will look closely at similarities, differences, patterns and change.	They make observations of animals and plants and explain why some things occur, and talk about changes.	Children talk about the features of their own immediate environment and how environments might vary from one another.
Trips	Local Park	Local Church	Discovery Centre Fire fighters' visits Local police visit Nurses' visit	Farm – look at growing animals	Butterfly House and Minibeast Hunt at The Horniman Zoolab (visit with minibeasts)	Teddy Bears' Picnic
